

Schrader Inflation Valve For Air Ride Suspension 充气阀接头

Features: 性能

Connects easily to air springs and other components that use 1/4", 3/8", 1/2" tubing Provides manual inflation point Includes protective cap that keeps out dirt and water, Material: All Brass With Nickel Plated, Push To Connect / Push In, Male thread, Two Touch, DOT Push In etc., Schrader valve, inflation valve connects to air springs and other components that use air lines to provide a manual inflation point. Valve includes protective cap (Nickel plated Brass) to keep out dirt and water.

Specification: 特性

1. Material: Brass
 2. Media: Compressed air low pressure fluids
 4. Operating pressure: 0- 150PSI
 5. Temperature: -20°C) to +120°C
